

Centerity Sniffer Traffic Analyzer

Overview

Centerity Systems develops comprehensive IT and network performance and availability monitoring solutions. The flagship product is *Centerity Monitor* – unique all-in-one monitoring system for the entire IT, networks and business services. In addition, Centerity systems offer complementary products such as *Centerity Tracker* – an advanced change management tool, *Centerity NetFlow* – traffic analyzer, *Centerity Sniffer* for real-time traffic analyzing and *Centerity Reporter* – an advanced data intelligence system.

Centerity Sniffer

Centerity Sniffer Traffic Analyzer delivers high performance analyzing of network traffic and present web-based intuitive dashboards, screens and reports.

Centerity Sniffer highlights

- Easy installation and deployment.
- Identifies top users, applications and protocols.
- Monitors network traffic.
- Traffic Mapping - arriving from designated ports, source IP's, destination IP's.
- Reports alerts, including a list of top talkers, when an interface exceeds its utilization threshold.
- Network traffic reports - traffic distribution, drill down reports, summarized reports.

With **Centerity Sniffer** - traffic analyzer, you can assure that the organization policy for traffic priority is forced. Centerity provides easy, but yet comprehensive view of your network traffic, bottlenecks, and abnormal behaviors.

Centerity Sniffer added-value

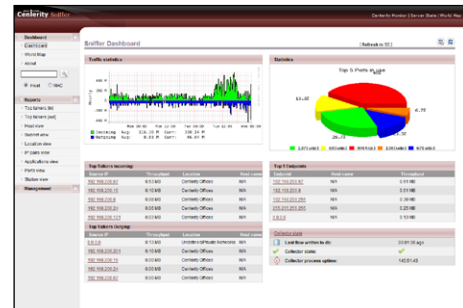

- Reduce potential downtimes and performance degradations.
- Live traffic mirroring.
- Suitable for any network ranging from SMB to enterprise.
- Supports IPv4 and IPv6.
- Flexible architecture - replicate & export remote collectors.
- Reduce costs optimizing your network traffic.
